- ⬜ Thread type used
- ⬜ Needle used
- ⬜ Fabric /Stabilizer used
- ⬜ Format you downloaded/purchased
- ⬜ Machine you are stitching the designs on

Design Code: DASS0065_HawainQuilting
Hoop Size: 4x4,5x7,6x6,8x8,10x10,12x12,13x13,16x16

Design Type: Embroidery Design
Thread recommended: 40 Rayon Thread (Marathon) – Match bobbin colour
Fabric Recommended: Cut away and fabric of your choice (Cotton/Voile)
Needle size: 75/11
Other requirements: None
Special Notes: All of these designs will have an outline first…this is to help lining up the blocks or borders if you use one big fabric and not stitching block per block. If you stitch the blocks and later join them ignore this first step.

If you are using the first step make sure you stitch this first outline after hooping the stabilizer and floating the batting

You cut this batting after the outline as close to the line without cutting the stitches.

The next step is to line up the fabric on the batting where you want your block to stitch...do the same for all the other blocks

TO DO THE APPLIQUE

Hoop Stabilizer

Float Batting
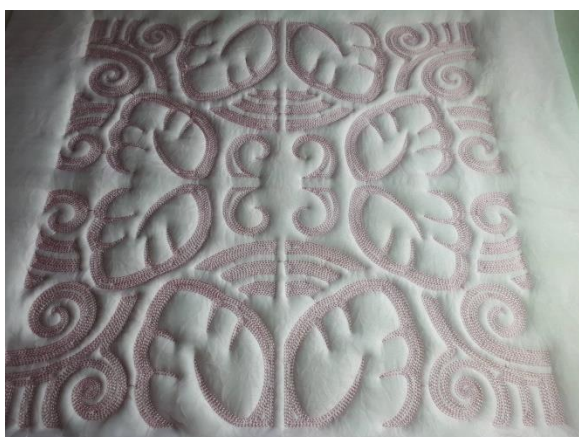

Stitch the outline and cut as close to batting without cutting the stitches

Float the fabric...in this case I used white scuba and....
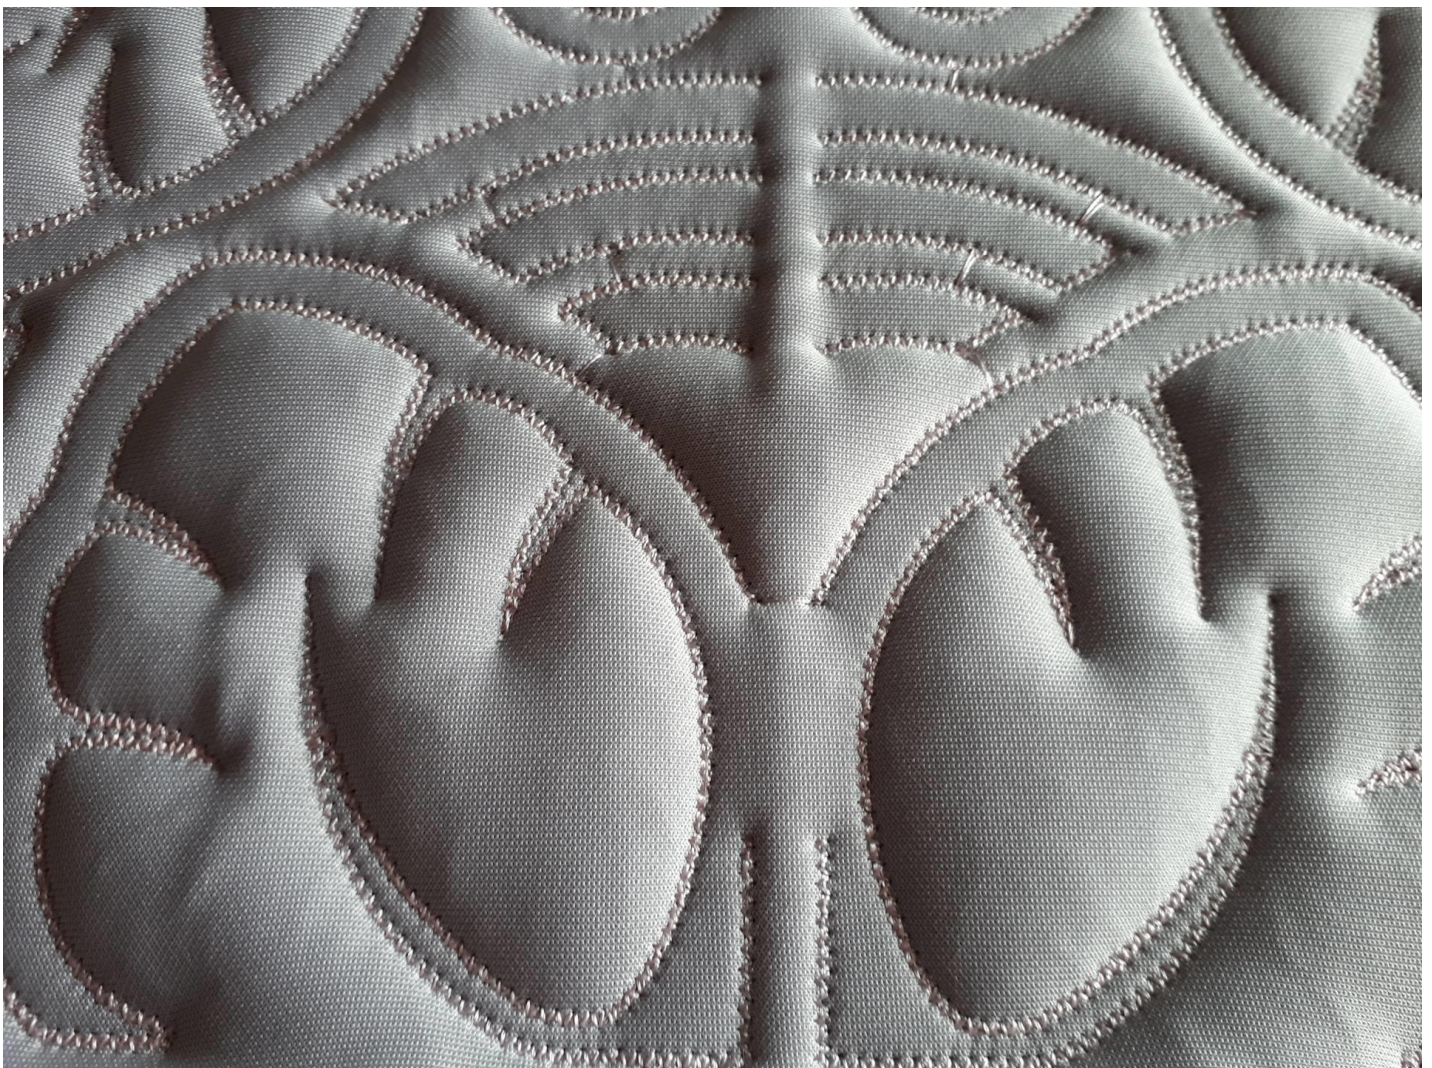

Pink organza....

Secure with pins making sure you do not pin in the stitch area

Stitch the chosen Applique design and put a stop after this step 2

Now place your 2nd layer of fabric....in this case I used a light grey scuba.

Secure with 505 spray as well as pins...making sure not to pin in the stitch area

Stitch the zigzag now

Cut all the inside lines out….to know where you can look on the image included….all the places where you have stitched already

Stitch the last part of the Applique design to give a soft finish.

To do the cutting machine design
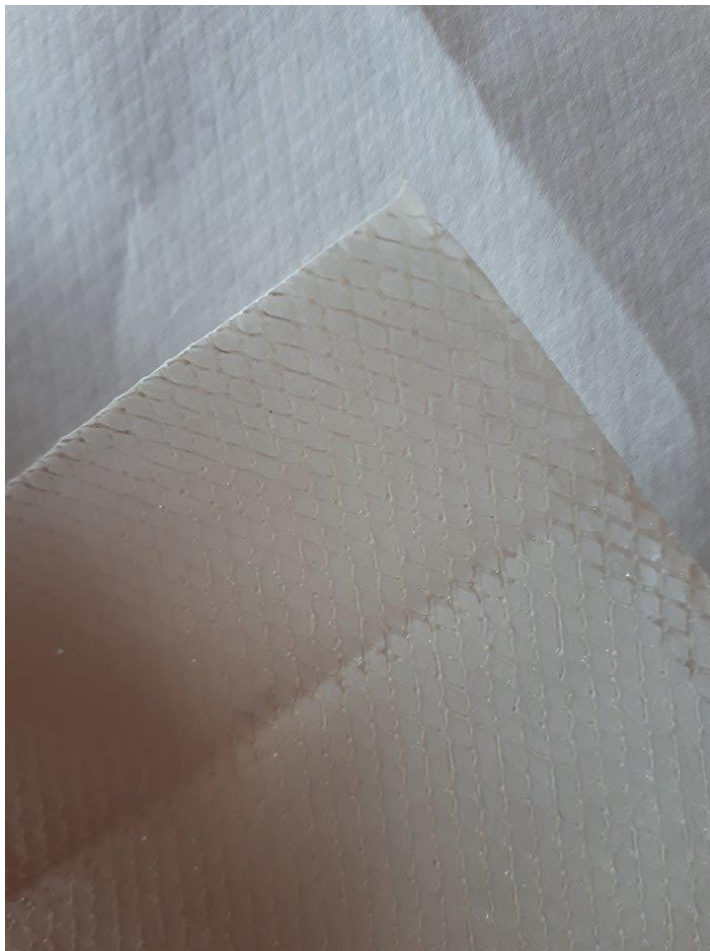

From the fabric shop get a iron on bonding paper...one side paper and other side rough glue.

Rough side on fabric iron on paper side till glue has melted

Stitch the outline on batting cut out and then the 2nd step as seen in picture

Cut out the chosen size of design…

Give the design a 8mm (0.35") seam allowance on the cutting machine to provide for the batting

Without batting a 4mm(0.16")seam allowance

Pull of the paper and place on fabric as shown.

Secure with 505 spray and now stitch the zigzag

After the zigzag go right ahead and do the last satin outline.

Finished outline

This blocks was 5x5 blocks stitched on cotton to show the difference between the scuba bounce and

the cotton….both have quilters batting between stabilizer and fabric….Both don the same way

The normal blocks your also hoop stabilizer

Float quilters batting

Float fabric(Stretchy) but secure with pins….out of stitching area

Stitch
